

KRISH SHIYANI

FRONT-END DEVELOPER

OBJECTIVE

Aspiring Front-End Developer seeking an entry-level opportunity to contribute technical skills, creativity, and a passion for UI/UX design to build modern and efficient web interfaces. I am eager to work in a collaborative environment where I can learn from experienced professionals, grow my expertise in front-end technologies, and deliver impactful user experiences through clean and responsive design

EXPERIENCE

FRONT-END DEVELOPER (PROJECT BASED)

Self / Personal Project - Portfolio Website

I developed my personal portfolio website to showcase my skills, projects, and experience as a Front-End Developer. The website is fully responsive and user-friendly, designed using HTML, CSS, and JavaScript. It highlights my abilities in creating clean, modern, and interactive web designs. Additionally, it serves as a platform for potential clients and employers to explore my work and contact me directly. My portfolio reflects my passion for web development and commitment to delivering quality projects.

INTERIOR DESIGN WEBSITE

Academic Group Project

I worked on an Interior Design website as part of a team project, where I was responsible for the front-end development. The website was built using HTML, CSS, and JavaScript, and is fully responsive across devices. It showcases interior design services, a project gallery, and client testimonials with a clean and modern layout. We focused on smooth user navigation and an attractive UI to enhance the overall experience. This project helped me strengthen my understanding of responsive design, layout structuring, and collaborative development.

ABOUT ME

I am a passionate and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and ReactJS. As a fresher, I am eager to apply my skills in real-world projects and continue learning new technologies. I have developed responsive and user-friendly websites, including a personal portfolio and a team-based Interior Design website. I enjoy solving problems, working in a team, and creating clean, modern web interfaces. I am now looking for an opportunity where I can grow professionally while contributing to impactful projects.
